FUNDACIÓN BAI A.C.

Health Education Internship

Fundación BAI's organizational vision is to be the catalyst for change, encouraging people to live healthy lives in which knowledge, prevention and treatment of HIV/AIDS replace fear, discrimination and prejudice. Our vision for all internship programs is to provide interns with practical, real-world professional experience in the track that best suits their interests and experience. Interns will work with Coordinators to develop and complete a unique project during their time with BAI. Cultural sensitivity, flexibility and personal initiative are essential traits for all internship tracks.

About the Internship

Health Education Interns work primarily with the TEAMM peer-to-peer education program in schools throughout Mérida. Interns spend their time planning and organizing lessons for students, conducting lessons in classroom settings, and evaluating lessons and programs in order to continually improve delivery and outcomes for the subsequent sessions.

Preferred Skills

- ✓ Teaching and pedagogic strategies
- ✓ Lesson planning
- ✓ Public speaking
- ✓ Interest in public health
- ✓ Leadership of a large team
- ✓ Mentoring children and adolescents
- ✓ Data collection and organization
- ✓ Data and program evaluation

Typical Tasks

- Organize and manage the BAI peer-to-peer education program (TEAMM)
- Communicate and build relationships with administrators of participating schools
- Plan and lead bi-monthly meetings for TEAMM students to improve their public speaking, classroom management, leadership and health education skills
- Employ approved methodologies to analyze and evaluate the program with the aim of continually improving its outcomes and how it operates
- Maintain, update and catalogue education program materials

Visit www.fundacionbai.com to submit your application! Fundación BAI accepts interns year-round.
