Web Development & Design Internship

Fundación BAI's organizational vision is to be the catalyst for change, encouraging people to live healthy lives in which knowledge, prevention and treatment of HIV/AIDS replace fear, discrimination and prejudice. Our vision for all internship programs is to provide interns with practical, real-world professional experience in the track that best suits their interests and experience. Interns will work with Coordinators to develop and complete a unique project during their time with BAI. Cultural sensitivity, flexibility and personal initiative are essential traits for all internship tracks.

About the Internship

Web Development & Design Interns are responsible for the appearance of the BAI website and its technical aspects, such as site speed and how much traffic the site can handle. Interns work with both the front-end and back-end of BAI's website, and are able to exercise creative control over the site's appearance and content.

Preferred Skills

- ✓ Familiarity with Wix
- ✓ HTML
- ✓ CSS
- ✓ JavaScript
- ✓ Knowledge of website hosting
- ✓ Complex problem-solving
- ✓ Independent learning style
- ✓ Graphic design

Typical Tasks

- Evaluating code to ensure it meets industry standards, is valid, is properly structured, and is compatible with browsers, devices, and operating systems
- Developing or validating test routines and schedules to ensure that test cases mimic external interfaces and address all browser and device types
- Using scripting or authoring languages, management tools, content creation tools, applications and digital media
- Conferring with staff to resolve conflicts, prioritize needs and develop content criteria
- Writing and designing website content according to the BAI Manual of Corporate Identity

Visit www.fundacionbai.com to submit your application! Fundación BAI accepts interns year-round.
