Psychotherapy Internship

Fundación BAI's organizational vision is to be the catalyst for change, encouraging people to live healthy lives in which knowledge, prevention and treatment of HIV/AIDS replace fear, discrimination and prejudice. Our vision for all internship programs is to provide interns with practical, real-world professional experience in the track that best suits their interests and experience. Interns will work with Coordinators to develop and complete a unique project during their time with BAI. Cultural sensitivity, flexibility and personal initiative are essential traits for all internship tracks.

About the Internship

Interns with appropriate qualifications have an opportunity to work with patients in a psychotherapy capacity. **Psychotherapy Interns** assist with planning group therapy sessions for BAI clients living with HIV. These sessions are professionally led, and are a combination of self-help groups and psychoeducational training.

Preferred Skills

- ✓ Psychotherapy coursework (required)
- ✓ Psychotherapy counseling
- ✓ Compassionate bedside manner
- ✓ Bilingual (Spanish and English proficiency)
- ✓ Research methodologies
- ✓ Lesson planning
- ✓ Verbal and written communications
- ✓ Public speaking

Typical Tasks

- Help the psychotherapist prepare the topic of each session by sourcing materials and educational videos, preparing group activities, etc.
- Attend and assist with the actuation of group sessions
- Plan and attend community public sessions, including tasks such as organizing material for the guest speaker's presentation, and general logistics
- Researching current and emerging psychotherapy topics to write brief reports for the website and give bimonthly community presentations

Visit www.fundacionbai.com to submit your application! Fundación BAI accepts interns year-round.
